DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Werner Stemer on 11/10/05.

The application has been amended as follows: Cancel Claims 12-14.

2. Claims 1-3 and 5-11 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art of record does not anticipate or render obvious the claimed shell fuse comprising a target acquisition sensor; a firing train including a firing device carrier movable from a safe position into an armed position, and a linearly movable firing pin; a force element disposed to be initiated by the target acquisition sensor and a linearly movable pin coupling the force element to the firing device carrier, the linearly movable pin displaceably supported parallel to the firing pin.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
